Floodlight 7200

## Floodlight 7200

The floodlight is designed to replace a standard halogen lamp. The floodlight is produced with the latest in LED technology that assures a long lifetime and low energy consumption. With its low maintenance costs it will serve itself economically in a short time. The housing is in coated stainless steel AISI 316. It's also **CE**-approved and reaches the **RoHS** requirements.

The lifetime of the LEDs is 50.000 hours which corresponds to approx. 22 years with 6 hour burn time a day. The energy consumption is 100W and it can be compared to the power of a 450W halogen lamp.

**That means a saving of 78%.**
